Letter From Scotland—

James Finlayson, agent of the Canadian Pacific Railway in Astoria, received a letter from Capt. McGloshon today. Capt. McGloshon came out last winter with Mr. Shuo the owner of the Gallena which it will be remembered went on the beach. The captain and owner came to see if it was worth while to attempt to salvage the Gallena but decided that it was better to accept \$2500 for her as she lay than spend a possible \$10,000 in what might prove an abortive attempt to float her. The captain writes that he had a splendid journey back over the C. P. R.R. and wishes to be remembered to all his friends here, besides making inquiries for the Gallena.

A Kodakshund espies a Tad,
A film comes o'er his eyes,
And on this film he snaps him
While he stands in mute surprise.
Then out of pure focussedness
He comes a trifle near
And snaps again so viciously
The Tad departs in fear.

When some friend snaps you with his kodak you would like to make a good impression upon the film. When that friend snaps you with his eyes you ought to make a good impression on his mind. The impression you make will depend on your clothes.

Good clothes not only have an influence on others; but give the wearer self-confidence and self-respect. Good clothes are not always expensive; you might pay a high price for apparel so gaudy that you would resemble an Easter egg. Taste is what counts.

We have made a study of clothing people. Whether you know how to dress well—know what is in good taste—or not, you can be sure that what you get here is right. We have no room for the wrong sort. Our kind of clothes earn for their wearers the reputation of being "dressed."

When you get "snapped," be sure that your clothes are "our kind."
